WEEKLY DECISION SUMMARY

THIS WEEK AT A GLANCE

Twelve products made the manufactured shortlist. The figures below describe evidence, not sales or profit.

12	4	6	2	5
opportunities	Strong	Promising	Worth Watching	compliance flags

26/35 positive outcomes across available core-signal assessments. Missing coverage remains missing rather than becoming a zero.

KITCHEN	3
HOME DECOR	3
PET	3
BABY	3

A balanced shortlist where evidence allowed. Real reports never add weak products simply to fill a category or reach a target count.

SELECTION METHOD

HOW PRODUCTS ARE SHORTLISTED

Three market views help separate stronger opportunities from products that need more proof.

01	ADVERTISING ACTIVITY	Looks for continued product advertising across different advertisers.
02	MARKETPLACE VISIBILITY	Checks whether a product appears meaningfully across relevant shopping platforms.
03	SEARCH INTEREST	Compares recent India search interest with the previous four weeks.

When more of these views agree, the opportunity is stronger.

WEEKLY CHANGE
Shows what is new, returning, stronger or weaker.

QUICK COMMERCE
Adds availability and competition context.

POSSIBLE SUPPLIERS
Lists research starting points when evidence is available.

REVIEW FLAGS
Highlights questions the client should check.

Weak products are never added simply to fill the list. Missing evidence stays visible.
